“Your Digital Partner
in Success!”

About Us

Centangle Interactive (Pvt.) Ltd., established in 2013 and based in Islamabad, has evolved from a 5-person startup to a notable software development and digital media solutions agency with 35 full-time employees, located on the 3rd floor of CIS Technology Park, Shehrah-e-Jamhuria, G-5/2 Islamabad. With a comprehensive portfolio in web and mobile application development, the company offers a broad spectrum of digital services including graphic design, MIS and GIS development, and customized software solutions. Centangle has built a strong reputation among national and international clients, successfully completing over 110 projects across various sectors such as corporates, startups, NGOs, universities, banks, and private businesses. Serving over 100 clients globally, Centangle is recognized for its impactful projects and partnerships at both local and international levels.

Digital Youth Hub For UNICEF

Project Overview:

Digital Youth Hub is Pakistan's first national-level platform designed to connect youth with opportunities in education, employment, engagement, and environment. Powered by AI-driven career counseling, it offers personalized recommendations, verified job listings, scholarships, volunteer programs, and green initiatives. Organizations can post opportunities, while users benefit from advanced filters, real-time updates, and a secure dashboard. Whether you're seeking a job, a scholarship, or a way to contribute to society, Digital Youth

KP NOC Issuance System for RRSD

Project Overview:

The Automation of KPK NOC System aims to modernize the process of issuing No Objection Certificates (NOCs) to NGOs in Khyber Pakhtunkhwa (KPK). The primary stakeholders are the NOC Issuance Department of KPK under Provincial Disaster Management Authority (PDMA).

Key Objectives:

- ▶ Automate repetitive tasks, minimize manual errors, and ensure consistent reviews.
- ▶ Provide real-time updates, centralized tracking, and audit trails.
- ▶ Simplify the application process with a user-friendly interface and structured dashboards.
- ▶ Enable progress tracking, reminders, and management of project extensions.
- ▶ Reduce administrative overhead and dependency on outdated systems.

USAID Funded

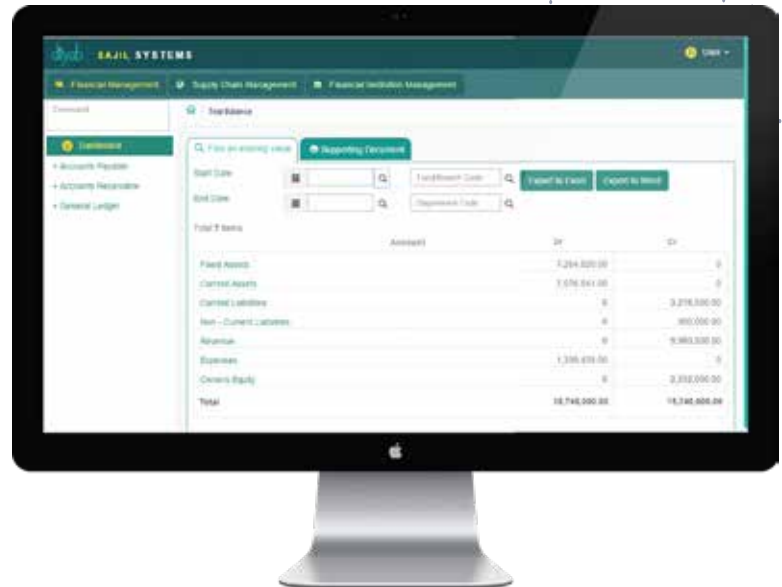

Sajil ERP for Dilyab Associates

Project Overview:

Centangle Interactive, in strategic collaboration with Dilyab Associates, undertook a significant initiative to drive digital transformation within key organizational structures, specifically focusing on cooperative societies, throughout the geographically challenging regions of Gilgit-Baltistan and Chitral in Pakistan.

Key Objectives:

- ▶ To decrease the technology gap in areas with poor digital access through digital solutions.
- ▶ To make operations more efficient in cooperatives and other organizations through digital systems, improving data management and operations.
- ▶ To help local communities join the digital economy by giving them digital tools and resources, boosting economic growth.
- ▶ To deploy digital solutions that fit the unique infrastructure and connectivity problems in the Gilgit-Baltistan and Chitral areas.

MEAL MIS For Care International

Project Overview:

We designed and developed a custom Management Information System (MIS) for CARE to automate their MEAL (Monitoring, Evaluation, Accountability, and Learning) process. By conducting detailed user and stakeholder interviews, we gathered essential requirements and ensured that the system aligned with CARE's objectives. The MIS was built using React.js for the frontend and .NET for the backend, delivering a responsive and robust solution. Despite a tight 4-month timeline, we successfully completed the project, enabling CARE to manage their MEAL distribution process more efficiently and effectively.

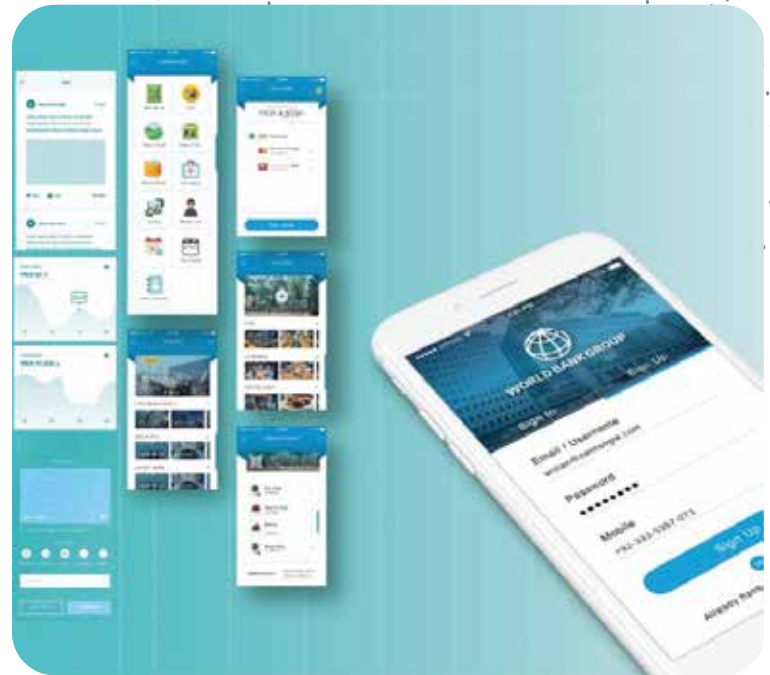

World Bank Campus App

Project Overview:

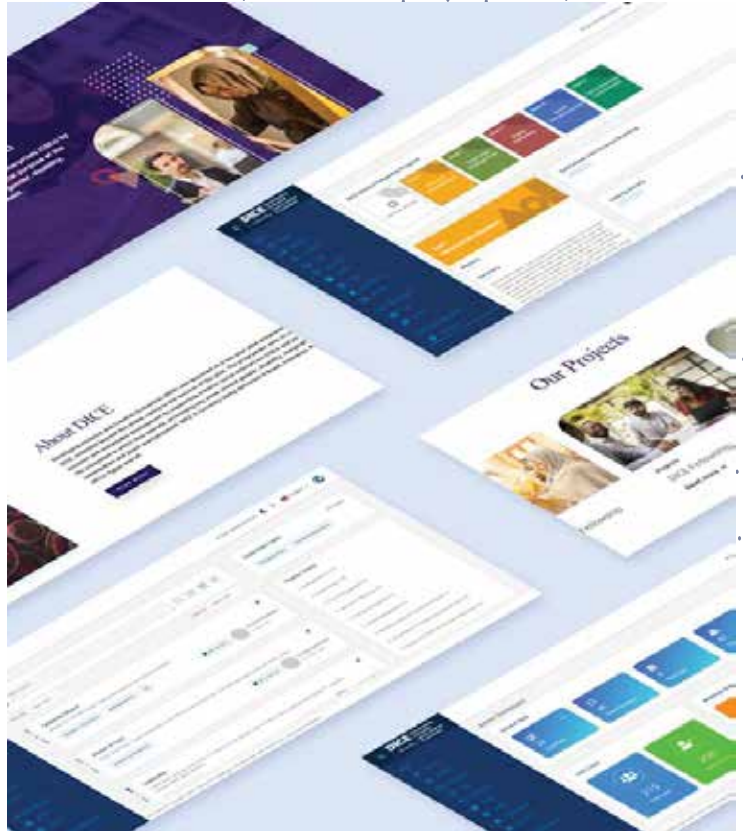

- ▶ Details of facilities available in Office (Gym, Urban Forest, etc)
- ▶ Facility to schedule multi-sports facility
- ▶ List of upcoming events (Pak Events) and locations/venues
- ▶ Daily Cafeteria Menu and Go-Organic Café Menu
- ▶ Office Extension List
- ▶ SIMSIM integrated digital payment for online ordering

DICE PORTAL

Project Overview:

- ▶ SMS and email connected messaging
- ▶ Hosting of video content
- ▶ Embedded Zoom
- ▶ Chat and community sharing features
- ▶ Embedded links to further reading and surveys
- ▶ Download management
- ▶ Admin and access control
- ▶ Information and privacy control mechanism
- ▶ Multiple Technology Stacks (Developed using Micro Services)

MEAL MIS for SIF

Project Overview:

Developed a comprehensive MEAL management system for Secours Islamique France (SIF), automating their project planning and monitoring processes. The system integrated project planning elements, log frame functionality, assumption monitoring, beneficiary tracking, and a user-friendly complaints module. Leveraging .NET and React.js technologies, we ensured efficient data management and user interaction. A sophisticated dashboard provided top-tier management with real-time insights for informed decision-making. This initiative streamlined SIF's operations, enhancing transparency, accountability, and impact assessment across their projects. Our expertise in .NET development, React.js frontend, MEAL system architecture, database management, and UI/UX design facilitated the successful implementation of this transformative solution.

Management Information System for the United States Institute of Peace (USIP)

Project Overview:

Centangle Interactive developed a Management Information System (MIS) for the United States Institute of Peace (USIP) to streamline the management of their funding cycles and organizational activities. The system digitizes processes, enhances transparency, and improves operational efficiency by automating fund tracking, program execution, and administrative workflows.

Additionally, the MIS includes comprehensive reporting tools that provide higher management with real-time insights and analytics for strategic decision-making. With features like role-based access, data centralization, and process automation, the system ensures better resource management and improved accountability across USIP's operations.

UNITED STATES INSTITUTE OF PEACE

To Whom It May Concern:

Subject: Performance for Centangle Interactive Pvt Ltd

Septhermber 30, 2022.

The United states institute of peace (USIP) has been working with Centangle interactive Pvt. Ltd since January 2020 to develop a program management system. The web portal was developed in the PHP framework. Perl Framework's CGI was used for backend development; PHP/JSP and MySQL was used for front end development and MYSQL used for databases. Following the completion and finalization of the portal, Centangle developed training materials for USIP staff, USIP partners and future developers. Centangle also imported all historical data provided by USIP in its data templates, hosting services including server set-up, server maintenance and updates, technical support, quarterly back-ups of data and bi-annual transfers of data. Centangle also manages and maintains the website domain of pakisthanpeacefund.com.

Over the last two years, USIP's experience with Centangle has been excellent. They won the contract after open competition. They have a competent and a professional team which is very keen and responsive to comments/feed-back.

TO WHOM IT MAY CONCERN

Developing Inclusive and Creative Economies (DICE) programme team of the British Council commissioned Centangle Interactive to develop a custom-built learning and development portal (LMS) for its project. The features of the portal included:

- SMS and email connected messaging
- Hosting of video content
- Embedded Zoom
- Chat and community sharing features
- Embedded links to further reading and surveys
- Download management
- Admin and access control
- Information and privacy control mechanism
- Monitoring and reporting mechanism

During our work with Centangle Interactive, we have found their team to be extremely professional, technically sound and client focused. They created the LMS in exceptional circumstances of COVID-19 and during a very short time, meeting all deadlines and accommodating all features requested by our team. We recommend working with Centangle Interactive and look forward to working with them in the future. We wish them success in their endeavours.
