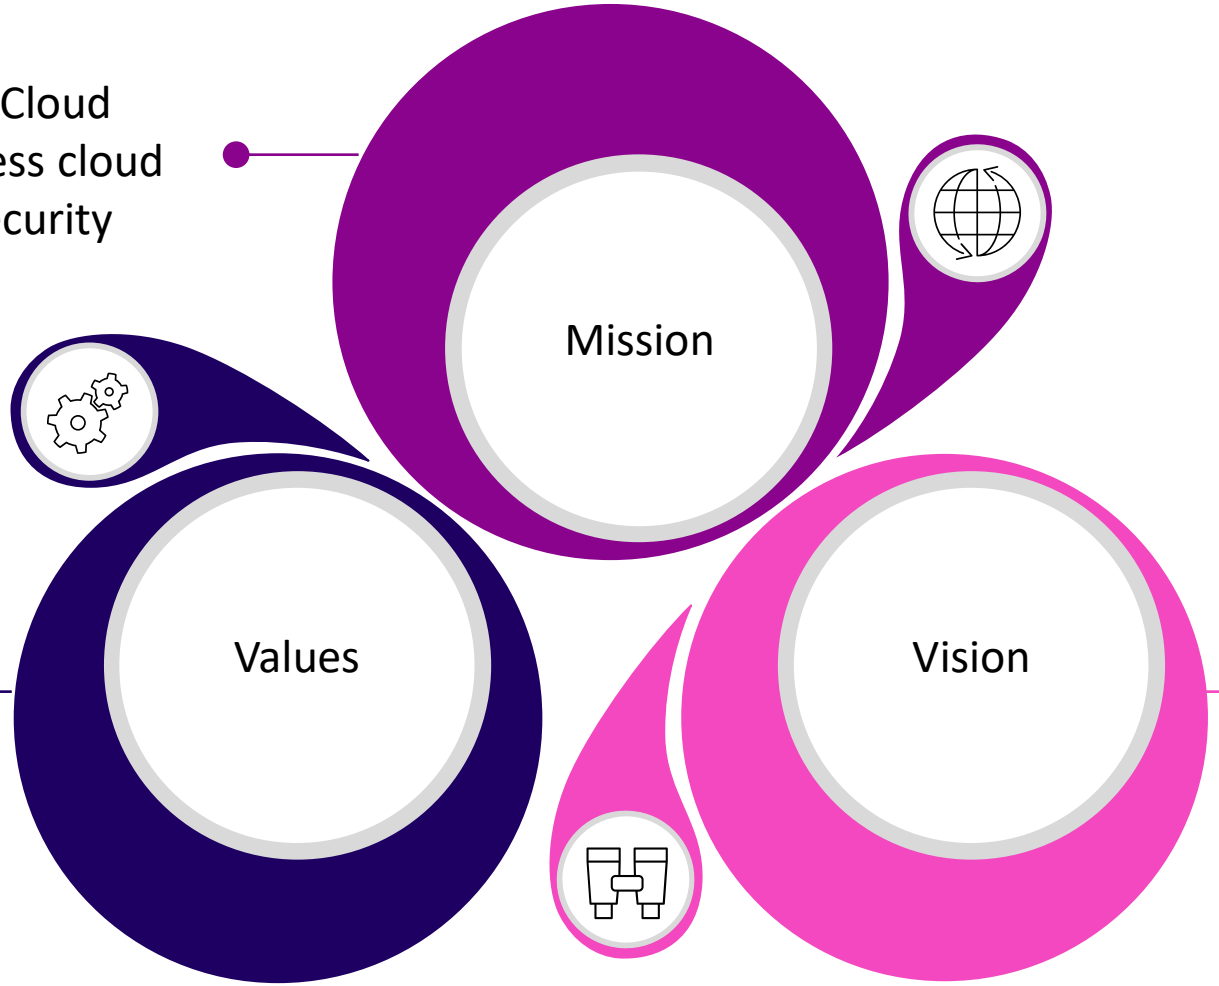
Corporate

# Profile

# Vision Mission And Core Values

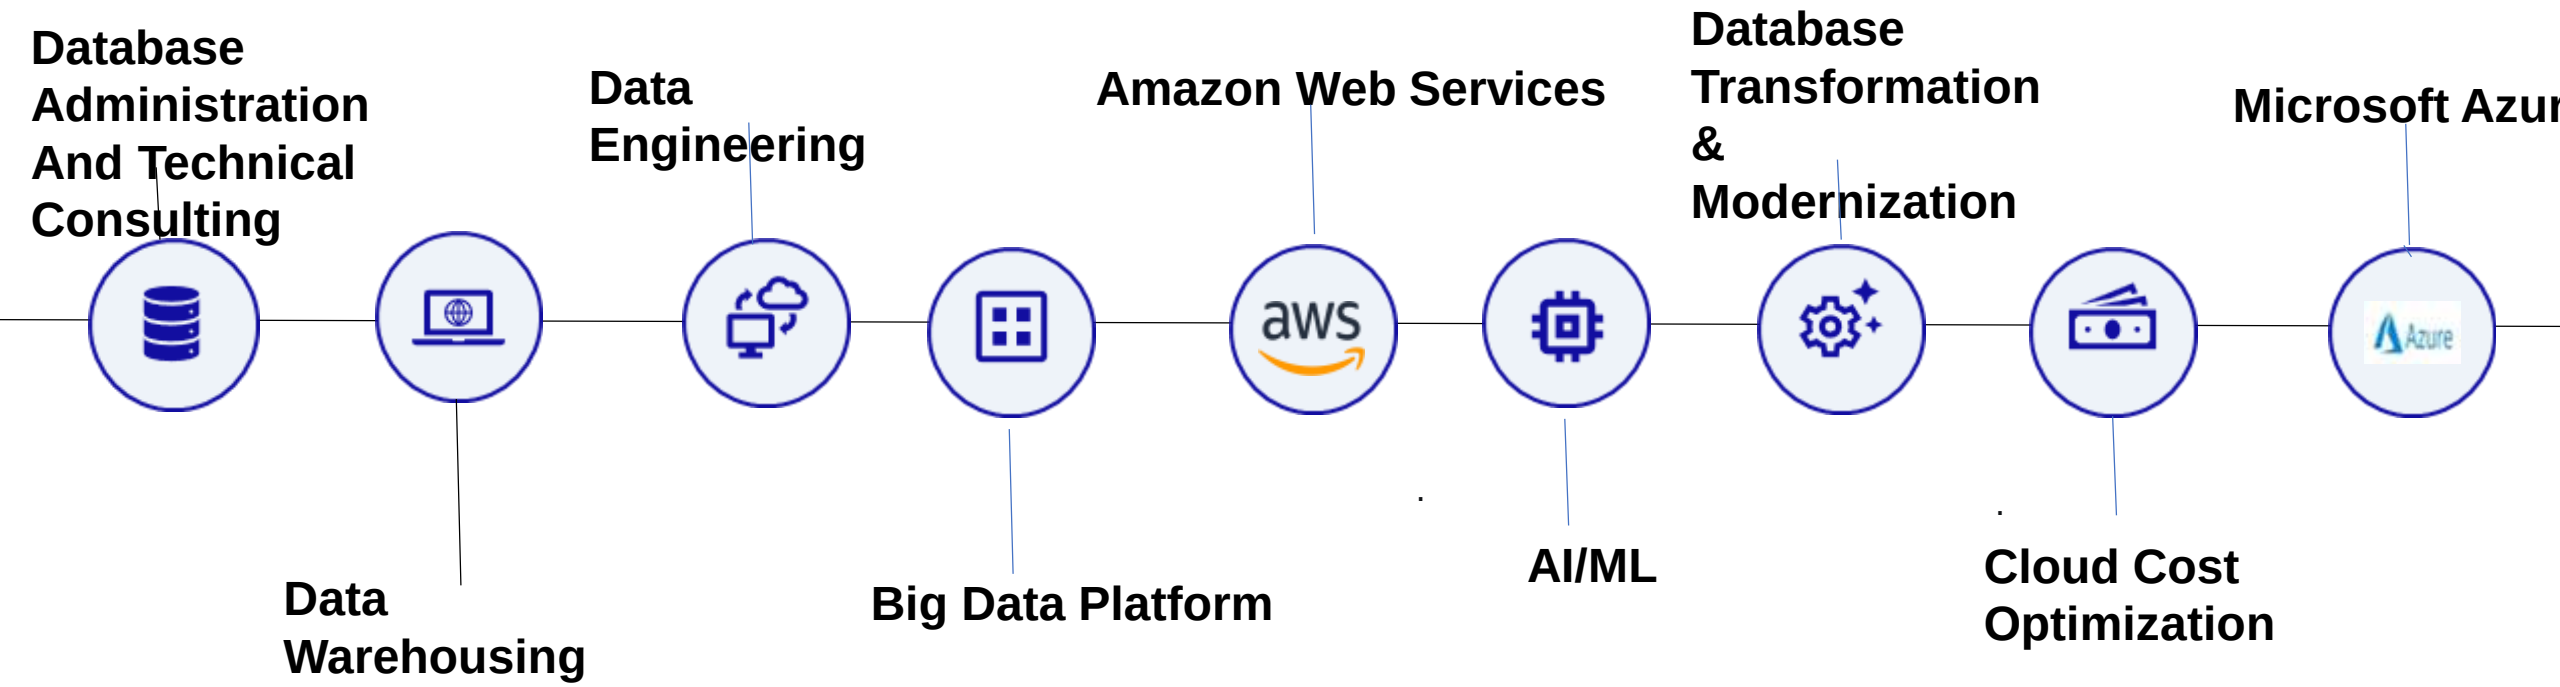
Deliver tailored Cloud services for seamless cloud adoption and security



Accountability
Integrity Innovation
Scalability

Empowering businesses with innovative and scalable cloud solutions

# Our Capabilities



# Cloud Services

| Cloud Migration | Cost Optimization | Security | DR |
| --- | --- | --- | --- |
| Asses & Plan | Right sizing | Identity Access Management | Risk Assessment |
| Migration Strategy | Savings plans & RI | Network Security | Solution Design |
| Cloud Architecture | Resource Utilization | Incident Response | Automated Backup |
| Landing Zone | Optimize Storage | Log Monitoring | Failover & Recovery |
| App & Data Migration | Automate Scaling | CDN Monitoring | Data Replication |
| Optimization | Consolidated Billing | Compliance | Maintain & Optimize |

# DevOps & Automation

## DevOps Consulting

Collaboration with team to craft and implement tailored strategies to streamline development lifecycle and accelerate delivery.

## Deployment & Infrastructure Automation

Our experts specialize in Automated, reliable deployments across cloud and on-prem environments using Infrastructure as Code.

## 24/7 DevOps Support

Continuous monitoring, rapid incident response, and proactive issue resolution—anytime, anywhere.

## Dedicated DevOps Workforce

Expert engineers integrated into your team, providing ongoing support and DevOps best practices.

# Digital Transformation

## Digital Marketing

SEO, paid ads, and performance-driven campaigns to increase brand reach and conversions.

## Website Development

Responsive, secure, and high-performance websites built for speed and scalability.

## E-Commerce & Retail

Development Custom online stores with seamless checkout, payment integration, and user experience.

## Mobile App Development

Scalable Android and iOS apps with intuitive design and reliable performance

# Customer Testimonials

SmartWeb

"Shanav Technologies seamlessly migrated our VPS hosting to AWS, resolving our scalability and performance issues. Their expertise ensured minimal downtime, zero data loss, and a smooth transition. Post-migration, we've experienced improved performance, reliability, and cost efficiency. Their professionalism and tailored approach exceeded our expectations. We highly recommend Shanav Technologies for cloud migration solutions."

"Partnering with Shanav Technologies for our migration to the cloud was a game-changer for us. Their team delivered a seamless transition, drastically improving our system performance while significantly reducing costs. Shanav Technologies' expertise and commitment to delivering cost-effective, high-performance solutions truly stand out."

# CASE STUDIES

## Gaming

### ismartweb

**Challenge:**
On-prem servers having limited scalability uptime and performance.

**Solution:**
Migrated to a scalable, fault-tolerant AWS Cloud architecture.

**Impact:**
⬆ Uptime: 88% → 99.9%
💰 +35% revenue growth
⚡ Lower latency & higher performance
🚀 Ready for rapid user growth

## ITES

### *Oplentix Tech Pvt Ltd*

**Challenge**: Securely host high-concurrency workloads with payment integrations.

**Solution**: Scalable cloud hosting with secure data flow and payment gateway integration.

**Impact:**
📊 3,000+ concurrent users supported
💳 Secure payment collections enabled
🔐 100% secure hosting model
⚙️ Improved performance & stability

## IoT

### *Samarth Takniki*

**Challenge:** Fragmented monitoring slowed performance tracking and fault resolution.

**Solution:** Centralized IoT platform with real-time dashboard & automated fault management.

**Impact:**
🔗 45,000+ devices unified
📊 Real-time visibility & alerts
❓ Reduced manual monitoring
💰 22% operational cost savings

## Cost Optimization

### *Eigen Technologies P Ltd*

**Challenge:**
High cloud costs and inefficient IoT workload distribution.

**Solution:**
Optimized architecture with load balancing and resource consolidation.

**Impact:**
💰 18% cloud cost reduction
⚡ 32% efficiency improved
🚀 Better workload distribution
📈 Optimized resource utilization

## Live Stream & Social Engage

### *Phoenix Ultra*

**Challenge:**
Scaling global live streaming with real-time community interaction.

**Solution:**
Cloud-based architecture optimized for live streams & engagement.

**Impact:**
🌍 93% user base growth
💰 114% revenue increase
⚡ Seamless live video & real-time chat
📈 Higher reliability & user satisfaction

## Healthcare

### *SDS Dental*

**Challenge:**
Slow order processing and low platform reliability.

**Solution:** Cloud migration for high performance and scalability.

**Impact:**
🛒 Smoother order placement
📈 20% revenue growth
👥 12% customer increase
⚡ Improved performance & uptime

# Our Industrial Exposure

Our Team of tech experts specialize in working with almost all the Industry Verticals.
